Quadra Compact XL

Billi™

Billi Quadra Compact with XL Levered Dispenser

The Quadra Compact Boiling and Chilled drinking water system is a water cooled, intermediate capacity, commercial drinking water solution.

Our Quadra boiling and chilled range incorporates Billi's core design principles - standing out for its use of innovative energy reclaim technology. Not only does the system save space and energy, but it also eliminates the need for joinery ventilation to transfer waste heat. This technology is backed by the Global Green Tag accreditation.

Streamlined and elegant, the XL levered dispenser offers boiling and chilled output delivered safely by operating the position-sensitive levers.
