### Billi Quadra 440 with XL Levered Dispenser & Red/Blue Levers

The Quadra 440 Boiling and Chilled drinking water system is a water cooled, medium capacity, commercial drinking water solution.

Our Quadra boiling and chilled range incorporates Billi's core design principles - standing out for its use of innovative energy reclaim technology. Not only does the system save space and energy, but it also eliminates the need for joinery ventilation to transfer waste heat. This technology is backed by the Global Green Tag accreditation.

Streamlined and elegant, the XL levered dispenser with the addition of our Red/Blue levers offers boiling and chilled output delivered safely by operating the position-sensitive levers. The inclusion of red and blue levers provides accessibility for individuals with vision impairments, and meets contrast criteria to comply with the Equality Act 2010.
